Business School

OHM Professional School

The OHM Professional School (OPS) of the Nuremberg Institute of Technology (Nuremberg Tech) is your partner for goal-oriented **academic training** in the Nuremberg metropolitan region. The OPS developed out of the Management Institute of Nuremberg Tech and the Verbund Ingenieur Qualifizierung gGmbH. Both institutions can look back on **more than 15 years of experience** in continuing education.

Based on a comprehensive academic foundation, the OHM Professional School provides practical expertise within the framework of **professional development**. Our expertise in technical and economic fields are emphasized in our master's and bachelor's degree programs, internationally oriented MBA courses in General Management as well as modular certificate courses, seminars, conferences and colloquia for specialists and executives.

Selected teams of university professors and top lecturers from the business world guarantee the **effective linking of theory and practice**, thus ensuring the transfer of current knowledge.

Our students

If you choose to study beside your job, you have to be aware of the fact that you have to set priorities and may have less spare time. I was able to manage the program beside my job in which I have to work 40 hours, perceive client appointments abroad and attend workshops. In case of absence, fellow students always helped me out.

I would definitely decide the OHM MBA again. The positive aspects, which convinced me of the MBA program persists during the whole program.

Sabine Roth,
Engineer

Program

The OHM Professional School is dedicated to producing global leaders through its MBA programs in General Management.

The MBA is characterized as a **highly practice-oriented** program which not only emphasizes the importance of hard skills and management expertise, but also focuses on **managerial soft skills** such as personal development, cross-cultural understanding, socio-intercultural competence and business ethics.

The MBA program has two main tracks: MBA for students with a business background and MBA for participants with a non-business background. Both tracks are offered in intensive and part-time modes:

- 1) **MBA Business Background** is an MBA program designed for applicants with educational background in management or business related studies.
- 2) **MBA Non-Business Background** is an MBA program designed for applicants with educational background in non-management related studies, e.g. IT, architecture, engineering etc.

The difference between the two tracks is that Non-Business Background students start their program by taking 7 basic management courses in an additional first semester.

Who should opt for OHM MBA Program?

Preparing students for the global economy is the top priority of the OHM Professional School. This program is designed for experienced managers from all industries, as well as scientists, engineers, lawyers and other professionals with a university degree (bachelor or master) and at least two years of relevant work experience
